

# PLANNING CANADA'S NEXT CHAPTER IN HUMAN SPACE EXPLORATION

## HEALTH AND BIOMEDICAL ROLES

The Canadian Space Agency is organizing an **information session** on supporting the health and performance of astronauts during future deep-space missions.

Subjects will include medical capabilities in space and synergies with technology development and research that address similar health challenges on Earth.

**11** Montreal  
October

**26** Toronto  
October

**2** Halifax  
November

**6** Calgary  
November

**8** Vancouver  
November
